

WARREN H. MANNING LANDSCAPE SURVEY

FIELD WORKSHEET

Thank you for participating in the Warren H. Manning survey. It would be impossible for LALH to undertake a project of this magnitude without help from researchers such as yourself.

- Please use this worksheet to record information collected during your site survey.

- When it is complete, please go to the Manning Project Research Associates page at www.lalh.org to enter your worksheet data online.

- Our system for keeping track of the information about Manning's work relies on his original client list. It is important that you obtain the original client and client number for each Manning site you research. Please do not fill out this survey without that information.

- Please contact LALH before filling out this survey if you do not know the original client number or the original client's name.

- Please fill out a separate survey form for each of the Manning projects that you research.

- Please answer every question, even if the answer is "unknown."

- Your work on this survey will be recorded and fully credited. Any use of this data in support of the forthcoming book on Manning's life and work will be fully cited.
